TRANSPORT EDUCATION AND TRAINING AUTHORITY SHORT COURSES

What is a learnership?

A learnership is an education and training program to bridge the gap between structured learning and work experience in order to obtain a registered qualification. It combines theory and workplace practice into a qualification that is registered on the National Qualifications Framework (NQF)

Benefits of a learnership to the employer

- Learnership are designed for the industry by the industry, this means the learners have industry knowledge
- The employer is able to develop the learner into the company needs
- Able to multi skill a learner in various departments within the company
- Development of persons adding to your Social Responsibility scope
- Improve productivity and efficiencies at a lower cost
- Assist in meeting the employment equity targets

Benefits of a learnership to the learners

- Obtaining a NQF qualification while gaining workplace experience
- Create job opportunities
- Learnership fast track the development of current employees
- Industry practical knowledge gained

Your company will receive a tax rebate, cash discretionary grants and grants to supply to tools & equipment for the learner
